Monthly Pipeline Condition Report

Network-wide condition summary for November 2026, based on the available 02 November snapshot.

Report ID: AS-MONTHLY-2026-11 **Report date:** 02 November 2026 **Area:** Nagin Nagar

Network condition summary

Pipelines	Healthy	Moderate	Critical	Network length	Average score
8	3	3	2	8,700 m	52.18/100

Condition distribution

Condition	Count	Share
HEALTHY	3	37.5%
MODERATE	3	37.5%
CRITICAL	2	25.0%

Pipeline-level condition

Pipeline	Length (m)	Diameter (mm)	Condition	Score	Operational status
PL-1001-R	1200	150	MODERATE	43.74	Active
PL-1002-R	850	150	HEALTHY	82.73	Active
PL-1003-R	650	100	CRITICAL	16.24	Active
PL-1004-R	1500	200	MODERATE	43.81	Active
PL-1005-R	1100	150	HEALTHY	86.93	Under Maintenance
PL-1006-R	950	100	CRITICAL	14.59	Active
PL-1007-R	1750	200	MODERATE	44.19	Active
PL-1008-R	700	150	HEALTHY	85.22	Active

Key observations

• 2 of 8 pipelines (25.0%) are marked CRITICAL and should be prioritized for verification.
• 3 pipelines are MODERATE and warrant closer monitoring.
• 3 pipelines are HEALTHY in this snapshot.
• 1 pipeline is marked Under Maintenance in the supplied operational-status field.

Reporting-period limitation: This is a snapshot-based November 2026 summary using records timestamped 02 November 2026 around 00:40. It is not a complete monthly trend report because historical readings and the rest of the month's data were not supplied.
