AI Defect Analysis Report

Summary of AI defect-analysis evidence available in the supplied records.

Report ID: AS-AI-2026-11-02 **Report date:** 02 November 2026 **Area:** Nagin Nagar

Evidence availability

The supplied records contain sensor readings and pipeline condition scores only. They do not include AI image-analysis outputs, detected defect classes, image references, or confidence scores. This report therefore does not claim that AI detected cracks, corrosion, deformation, or leakage.

Sensor condition distribution (not AI defect classification)

Condition	Pipeline count	Share
HEALTHY	3	37.5%
MODERATE	3	37.5%
CRITICAL	2	25.0%

Pipeline-level evidence

Pipeline	Sensor status	Score	AI defect class	AI confidence
PL-1001-R	MODERATE	43.74	Not provided	Not provided
PL-1002-R	HEALTHY	82.73	Not provided	Not provided
PL-1003-R	CRITICAL	16.24	Not provided	Not provided
PL-1004-R	MODERATE	43.81	Not provided	Not provided
PL-1005-R	HEALTHY	86.93	Not provided	Not provided
PL-1006-R	CRITICAL	14.59	Not provided	Not provided
PL-1007-R	MODERATE	44.19	Not provided	Not provided
PL-1008-R	HEALTHY	85.22	Not provided	Not provided

Evidence needed: Add each AI analysis result with inspection/image ID, detected class, confidence score, and analysis timestamp. Sensor status must not be represented as an AI defect finding.
