Leakage Report

Leak-event evidence and sensor indicators for the Nagin Nagar pipeline snapshot.

Report ID: AS-LEAK-2026-11-02 **Report date:** 02 November 2026 **Area:** Nagin Nagar

Leak-event record status

No confirmed leak events were included in the supplied data. The records contain sensor condition statuses, but no leak-event IDs, confirmed leak locations, source classifications, start/end times, or resolution records. A CRITICAL sensor condition is an investigation indicator, not proof of leakage.

CRITICAL pipelines — investigation candidates

Pipeline	Pipeline name	Pressure	Flow	Temp °C	Motion	Vibration	Score
PL-1003-R	Nagin Nagar - South Section	1.13	17.47	44.64	1.24	7.38	16.24
PL-1006-R	Nagin Nagar - Extension A	1.30	6.15	41.35	1.14	7.26	14.59

Leak-event summary

Metric	Available evidence
Confirmed leak events	0 supplied / not established
Leak source	Not provided
Leak start and resolution times	Not provided
Repair or closure details	Not provided

Recommended action: Verify the CRITICAL pipelines through field inspection or confirmed leak-detection evidence before creating a leak event.
